

This Learnership delivers a nationally accredited qualification, combined with workplace experience.

COURSE OUTCOMES

This course is designed for people working in a project environment as a team member, project administrator or leader of a small project or sub-project.

The Project industry is integral in the global business environment and skilled practitioners are required to meet the demands of the industry, providing significant benefits to individuals, global corporations and the country. Projects are diverse in their nature, so a wide range of competencies are required to manage them and other similar systems and programmes. Learners completing this course will have the necessary knowledge, skills and attitudes to function more effectively in a project environment. This certification will allow learners to advance their career opportunities further into project administration, support services or management within an organisation, in all sectors.

Learners of this qualification will be able to:

- develop the foundational skills required for an individual in an organisation to conduct projects successfully.
- be an effective project team member.
- be able to undertake a range of project management administration or support tasks and contribute to the planning and execution of projects or sub-projects.
- plan, execute and control small, simple projects.

Accreditation: Services Seta Accredited Qualification

Language: English

It is assumed that the learner attempting this qualification is competent in:

- Communication at NQF Level 3.
- Mathematical Literacy at NQF Level 3.
- Computer Literacy at NQF Level 3 or equivalent.

Assessment: The learner will compile a portfolio of evidence for assessment against qualification outcomes.
